ZIA KAYAK OUTFITTERS
DRIVE AWAY RENTAL AGREEMENT

SAFETY & CAR-TOPPER DISCLAIMER

I do know how to swim and I will wear my lifejacket AT ALL TIMES while on the water.

Be very alert to boat traffic and follow basic rules of the nautical road. Boats may not always see kayaks so low in the water. Get out of their path and wave at them with your paddle to get their attention, if needed.

Begin your paddling trip into the wind so that you can use the wind to assist you to paddle back.
Best not to venture out if the wind is so strong it is creating whitecaps on the lake.

One person per boat for a single kayak.

Carry your cell phone in a water-proof bag.

Cross boater wakes straight on at a 90% angle.

TO AVOID CAPSIZE:
   a. Do not stand up in the kayak
   b. Stay in the middle of the kayak - don't lean or reach for an object
   c. Keep low center of gravity - arms below head

IF YOU DO CAPSIZE:
Right the kayak and climb back onto it from the side.
It is important that you get out of the water if it is cold ASAP to prevent hypothermia.

I understand that it is my responsibility to ensure the safe and proper loading of my rental kayak on my vehicle. I acknowledge that improper loading and attachment of my rental kayak may result in damage to my vehicle, vehicles around me, and the rental items themselves.
I release Zia Kayak Outfitters' staff from all liability for any assistance provided in loading or securing rental equipment.
